Short Bio (in 150 words):	<p>Professor Horng-Yih Ou is a leading endocrinologist and expert in diabetes research, currently serving as Professor of Medicine at National Cheng-Kung University (NCKU), Taiwan. He is also the Director of the Division of Endocrinology and Metabolism and the Diabetes Prevention and Management Center at NCKU Hospital. With a strong research background in metabolic disorders, obesity medicine, and diabetes management, Dr. Ou has authored numerous peer-reviewed publications and played a key role in shaping clinical guidelines. As President of the Taiwanese Association of Diabetes Educators, he actively promotes diabetes awareness and professional education. His contributions extend to international collaborations, including his role as Co-Chair of the 2025 Scientific Meeting of the Asian Association for the Study of Diabetes (AASD). A distinguished clinician and researcher, Dr. Ou continues to advance endocrinology and diabetes care in Asia.</p>
