| Short Bio (in 150 words): | <p>Dr. Young Min Cho, a specialist in endocrinology and metabolism, earned his MD (1996) and PhD (2004) from Seoul National University. Following rigorous training at Seoul National University Hospital, he joined the faculty in 2003. From 2009 to 2010, Dr. Cho honed his expertise in gastrointestinal endocrinology as a Visiting Scholar at the University of British Columbia, Canada.</p> <p>Currently, Dr. Cho focuses on diabetes and obesity care, with research interests in gut hormones and glucose metabolism. He is actively involved in clinical trials evaluating novel drugs, medical devices, and digital health solutions for these conditions.</p> <p>A dedicated clinician and researcher, Dr. Cho combines his passion for patient care with efforts to advance the scientific understanding of endocrinology, continually contributing to improved health outcomes.</p> |
