<b>Short Bio (in 150 words):</b>	<p>Dr. Yi-Jing Sheen obtained her Bachelor's degree from China Medical University, Taichung, Taiwan, in 1999. She later earned a Master's degree in Health Services Administration in 2011 and a Ph.D. in Public Health from China Medical University. Currently, she serves as an Attending Physician in the Division of Endocrinology and Metabolism, Department of Internal Medicine, at Taichung Veterans General Hospital, a position she has held since March 2017. Her research focuses on diabetic epidemiology, and precision diabetes management. She is particularly interested in electronic dashboard-based remote inpatient glycemic management systems, diabetes complications, and the evaluation of diabetic peripheral neuropathy using short-wave infrared hyperspectral imaging. Dr. Sheen is dedicated to advancing innovative approaches in diabetes care and management to improve patient outcomes.</p>
