<p>Major Field</p>	<p>Endocrine hypertension, cardiovascular endocrinology</p>
<p>Professional Activities: (Career or membership)</p>	<p>Member, Council of the Endocrine Society of Australia Member, Annual Meeting Steering Committee, Endocrine Society Co-lead, Primary Aldosteronism Centre of Excellence Member, Endocrine Society Primary Aldosteronism Guideline Writing Committee</p>
<p>Short Bio (in 150 words):</p>	<p>A/Professor Jun Yang is the Head of the Endocrine Hypertension Group at Hudson Institute of Medical Research, Consultant Endocrinologist at Monash Health and Senior Researcher in the Department of Medicine at Monash University, Victoria, Australia. Jun graduated from Monash University with a MBBS (Hon) in 2001, obtained the FRACP in 2010 and completed her PhD on tissue-selective coregulators of the mineralocorticoid receptor in 2013. She has continued basic and clinical research in the field of aldosterone-mediated hypertension, with >125 publications in peer-reviewed journals. She established Melbourne's only Endocrine Hypertension Service in 2016 and co-leads the NHMRC Centre of Research Excellence in Primary Aldosteronism. Jun is passionate about creating change through "bench-to-bedside" translational research and implementing research outcomes in clinical practice. Together with her PhD students and national/international collaborators, her research program seeks to improve the detection and understanding of primary aldosteronism so as to achieve improved patient outcomes.</p>
