

CV of Invited Faculty

Ruey-Hwa Chen

Position	Distinguished Research Fellow
Department, Affiliation	Institute of Biological Chemistry Academia Sinica, Taipei, Taiwan
Major Field	Cancer biology, Cell biology, Cell metabolism
Professional Activities: (Career or membership)	Chinese Society of Cell and Molecular Biology, Council member Taiwan Society of Biochemistry and Molecular Biology, Council member American Society for Cell Biology, member International Federation for Cell Biology, President
Short Bio (in 150 words):	<p>Dr. Ruey-Hwa Chen received B.S. and M.S. degrees from National Taiwan University (NTU), and Ph.D. degree from Michigan State University. She was a postdoctoral fellow and an Assistant Biochemist at University of California San Francisco. She then became an Associate Professor and Professor at Institute of Molecular Medicine, NTU. She relocated to Institute of Biological Chemistry, Academia Sinica to be a Research Fellow and promoted to Distinguished Research Fellow.</p> <p>Dr. Chen is a recipient of NSTC Outstanding Research Award; Academia Sinica Investigator Award; NSTC Merit Research Award; TienTe Lee Biomedical Foundation Outstanding Research Award; TBF Chair in Biotechnology; The 59th Academic Award, The Ministry of Education Merit MOST Research Fellow Award; Taiwan Outstanding Women in Science, Wu Chien-Shiung Education Foundation, and TWAS Award in Biology.</p> <p>Dr. Chen's has made important contributes to protein ubiquitination and autophagy. Her current research focuses on the assembly mechanism and biological functions of purinosome.</p>
